COMPANY INTRODUCTION

OVERVIEW

Fixed Income Platforms LLC the organization behind FIPCOIN, was founded in April 2018 in USA with the support of Bridge Funding & Investments Limited. Since its inception, the company has expanded globally to key financial hubs including Hong Kong, India, Europe, and Dubai. Specializing in Private Placement Programs, and wealth management, FIP Trade Factory manages funds for over 6,000 clients worldwide. This includes the innovative FIPCOIN, the world's first cryptocurrency offering fixed returns that are independent of market conditions. Under the leadership of CEO Mr. Krishna, who brings extensive experience in international banking and IT, the company is dedicated to integrating block chain and Web3 technologies into its financial solutions, ensuring transparency, stability, and innovation in digital assets.

MISSION

Our mission is to demonstrate that the cryptocurrency industry remains a secure investment avenue despite the influx of news and recent price fluctuations.

VISION

Our vision is to establish a remarkable, premier, and globally esteemed cryptocurrency company capable of independently managing wealth for future generations.

- **Headquarters – CZECH REPUBLIC**

tools to
rescue the
people in
need

OUR SOLUTIONS

DECENTRALIZED WALLET

We are developing a decentralized wallet with multichain capabilities (Polygon and BNB Chain) that boasts enhanced security features through an L2 protocol and hardware wallet integration. Stay tuned for innovative security measures that will be introduced for the first time in the crypto space.

STRUCTURED BLOCKCHAIN

We aim to create a structured ecosystem utilizing an L3 protocol with zero gas fees. This will foster a scalable blockchain environment that is accessible to a wide range of users including financial institutions & online payment gateway companies delivering a user-friendly experience for investors.

UNIVERSAL BLOCKCHAIN EXPLORER

Introducing a universal blockchain explorer designed to track and validate transactions across multiple blockchain networks. This tool will enhance investor confidence through transparent, secure validation, and authenticity, while also providing an improved user experience.

CROSS BORDER TRANSACTION PLATFORM

FIPCOIN serves as a cryptocurrency cross-border payment platform that simplifies transactions between different countries. Our goal is to transform global transfers, initiating a promising journey ahead. We assist individuals, entrepreneurs, and businesses with their international payment needs.

OUR SOLUTIONS

CROWDFUNDING PLATFORM FOR MOVIES

We are launching a valuable platform for aspiring filmmakers by creating crowdfunding opportunities that allow them to secure funds independently. This initiative will emphasize the project's value and contribution to democratizing the film industry, attracting more investors.

OPINION TRADING PLATFORM & BOT

We are developing an opinion trading platform that offers an engaging way for individuals to share their insights and earn rewards. With an opinion trading bot and dashboard featuring advanced AI capabilities, including predictive analysis and social network analysis, to encourage ecosystem integration.

EXCHANGE WITH SECURED STAKING

FIPCOIN provides a robust platform for users to grow their digital assets safely. By leveraging advanced security protocols, this model ensures that users' investments are protected against potential threats. Through staking, users can earn rewards by participating in the validation of transactions on blockchain.

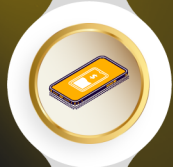

CYBERCRIME PREVENTION WITH AI

We are implementing AI-enabled tools to effectively combat cybercrimes. With an AI tool for emergency assistance, users will experience enhanced response times, helping individuals in distress and ensuring timely support for those in need. These tools going to reduce the cybercrimes upto 70%.

FIPCOIN

WHAT IS FIPCOIN?

FIPCOIN presents a groundbreaking concept in the world of cryptocurrency by offering fixed returns regardless of market circumstances. FIPCOIN guarantees stability by utilizing its clients* extensive cross-border transactions and established High-Frequency Trading (HFT) activities to create steady revenue streams. This unique characteristic establishes FIPCOIN as a dependable digital asset that merges capital growth opportunities with regular monthly profits.

SECURITY

FIPCOIN employs advanced security protocols, including multi-layered encryption to protect transactions and user data. Regular smart contract audits conducted by reputable third-party firms ensure the security of integrity and the code, protecting against potential vulnerabilities.

TECHNOLOGY

FIPCOIN is built on the Binance Smart Chain (BSC), leveraging its powerful infrastructure and the widely adopted BEP-20 token standard. BSC's smart contract capabilities are crucial to implementing FIPCOIN's fixed income distribution mechanism, ensuring transparency and automation in dividend payments.

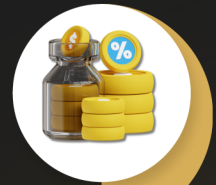

TOKENOMICS

Excess tokens allocated from the pre-sale and ICO phases will undergo systematic burning, effectively reducing the overall token supply and increasing scarcity. This deflationary approach is designed to encourage early investor participation and sustain the long-term value of the token

Token Symbol	FIPCOIN
Token Protocol	Binance Smart Chain
Contract Address	0x3F885D6a9737A0649574dA36 93E54F74eB1FAC53
Total Token Supply	200 Million (140M LOCKED)
Initial Token Supply	60 Million
Token Value	\$1
Pre-sale Values	\$0.80, \$0.85, \$0.90

ALLOCATION OF FUNDS

Funds will be allocated across different stages.

Incubation - Aims to connect project with company resources and experts.

Early stage venture - Token equity investments across crypto currency sectors.

Late-stage growth to target more mature companies aiming to scale into Web 3 ecosystem.

- **Token Supply: \$60 Million**
- **Infrastructure and Server Development: 70%**
- **Digital Marketing and Offline Collaborations: 10%**
- **Growth and R&D: 10%**
- **Advisory: 10%**

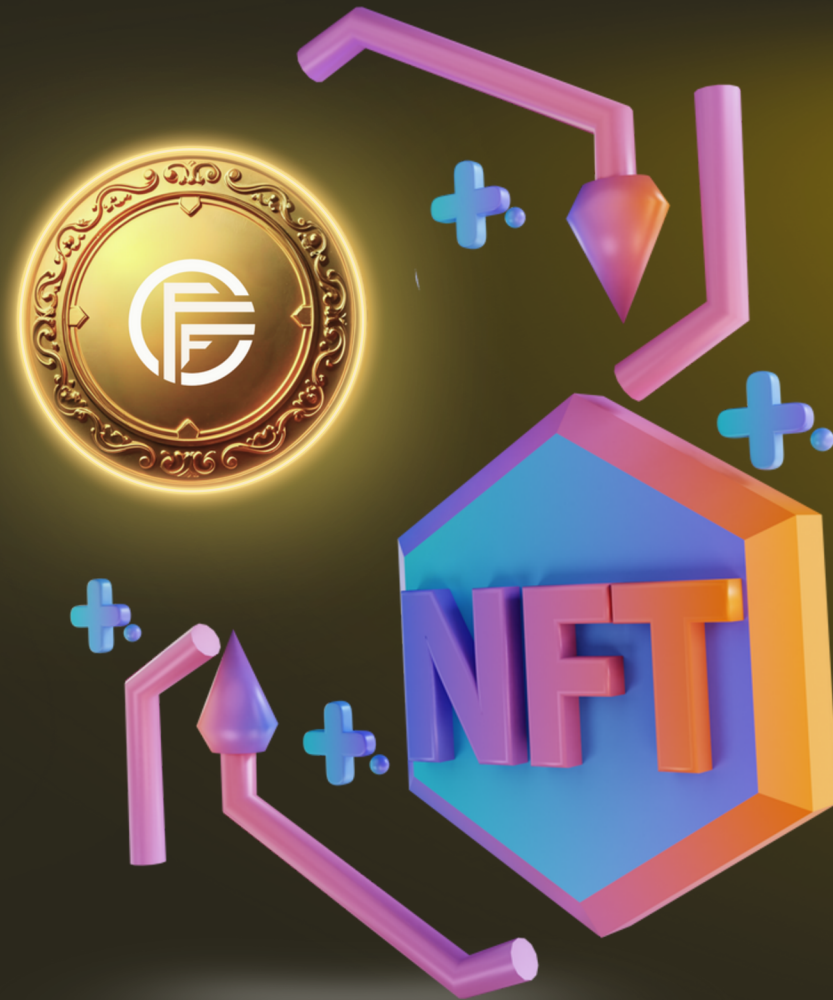

1 NFT Value - €50,000

Total Supply - 300

FICONFT represents a tangible (real world) asset where your funds are securely held in top-rated banks. We obtain bank guarantees that can be auctioned off at premium rates during our company's valuation. This asset has the potential to sell for 5 to 10 times its value within 12 to 24 months.

By purchasing at least one NFT, you can become a founding member of FIPCOIN, granting you shareholder status and a voting role in our major decisions for as long as you hold that NFT. Also, you're welcome to buy as many NFTs as you'd like.

You also have the option to sell it back to us at a premium price, allowing buyers to realise their ROI after a minimum holding period of 12 months.

FICONFT

Moreover, FICONFT provides exclusive advantages to its holders, including a fixed monthly return on investment (ROI) of 2% if received in USDT, or 4% monthly if received in FIPCOIN. Holders can sell 50% of their earnings monthly while retaining the remaining 50% for a minimum of one year.

By joining the FIPCOIN family, you embark on a groundbreaking journey that merges traditional finance with innovative blockchain technology. We prioritize transparency, security, and growth, ensuring that every member's investment is impactful and rewarding.

As part of our global community, you'll connect with like-minded individuals, sharing ideas and strategies that can lead to new opportunities. The future of finance thrives on collaboration, and at FIPCOIN, we believe in the strength of collective advancement and mutual success.

With FICONFT, you're investing in more than just a digital asset; you're investing in a vision—a vision where technology and finance unite to unlock unlimited possibilities. We invite you to help shape the future, one NFT at a time, and contribute meaningfully to the realm of digital innovation. Welcome to the FIPCOIN family!

Discover the world of FICONFT today and take your initial step toward a brighter financial future. Your journey into the dynamic landscape of NFTs and digital assets is just beginning!

Feel free to reach out to us for information on how to purchase this FICONFT.

MAJOR MILESTONE TARGETS

\$33M IN FUNDING

LISTING TOKEN ON EXCHANGES

COMPLETION OF MAJOR USE CASES &
INTRODUCTION TO THE WORLD

ROADMAP

INVESTMENT **ASK**

COMPANY **GROWTH** OBJECTIVES

Company is aiming to raise \$33M for growth and development

Partnering with various reliable crypto partners and global banking systems to ease users' crypto trading experience.

03

Project investments to expand crypto currency use cases.

Web 3 and blockchain technology development for HFT.

02

01

PLAN **FOR** INVESTORS

FOR SHORT TERM INVESTORS

Investors with at least \$50,000 in surplus funds available for short-term investments of 3 to 6 months can join with us to earn a fixed monthly return on investment (ROI) of 3%. Each investor will receive a contract along with tokens, which shall be securely locked and returned upon repayment of the funds. Additionally, there is an option to transition into a long-term plan for those who wish to continue their journey with us.

FOR LONG TERM & CRYPTO INVESTORS

Investors with surplus funds available for long-term commitments, starting at a minimum of \$2 million for a duration of 2 to 5 years, have the opportunity to partner with us. By doing so, they can earn a fixed monthly return on investment (ROI) of 1% and monthly benefit from coin appreciation. Tokens will be issued, which can be sold after 2 years. We are also open to inviting investors to join our advisory board for collaborative opportunities.
